

การศึกษาอำเภอดั้งแบบในการจัดบริการสาธารณะเพื่อการบริหารประชาชนแบบเบ็ดเสร็จ

(Government outlet)

This study is directed basic research having been done to get knowledge management of serving public services by central government and local government. The model of public services in United Kingdom, Japan, Australia and Thailand was compared. All kinds of works are categorized to be counter service, service link, off-house service and in-house service in order to analyze the possibility of shifting the authority of serving counter service to Amphoe. Government outlet being under jurisdiction of Amphoe is also presented.
